CS 3300 Project 1 Status Update 2
Amanda Ong (ayo3), Annie Zhang (zz229), Billy Zhu (bz83)

What we've done:
Amanda: Designed sketches for the top 3 data sets
Annie: Designed sketches for the top 3 data sets
Billy: Designed sketches for the top 3 data sets
- We've also met together to evaluate the pros and cons of each data set.
- Agreed to work on the police killings data set.
- We also each contributed to the final 3-5 sketches.

What we will do:
Amanda: Create SVGs for the people and gun grids. Work on the age pie chart.
Annie: Work on the race and armed grid diagrams.
Billy: Work on age/race and armed by race bar charts.

Sketches:
RACE Pictures of people with colors filled for ethnicity (ROGB), 10 by 10 box
ARMED pictures of guns with colors filled for status, also 10 by 10
AGE pie chart
AGE AND RACE comparative bar chart (vertical, age on x axis)
ARMED BY RACE bar chart (horizontal) - with lines splitting unarmed vs weapon vs other
AGE + RACE

Relative Freq. (y-axis): 100, 75, 50, 25

Age (x-axis): <18, 19-30, 31-45, 46-65, >65

Key
- Asian (red)
- Black (blue)
- Hispanic/Latino (orange)
- White (purple)

Police Killings based on Weapons

Key:
- = Every 4% with weapons
- = Every 4% unarmed
- = Every 4% other

Race/Ethnicity   ARMED BY RACE

White

Black

Hispanic/Latino

Asian/Pacific Islander

■ = Unarmed
■ = Weapons
■ = Other

75% Officer killed were **BLACK**

15% Officers killed were **WHITE**

3% Officers killed were **LATINO**

2% Officers killed were **ASIAN**
