CS 3300 Project 1 Status Update 3
Amanda Ong (ayo3), Annie Zhang (zz229), Billy Zhu (bz83)

What we've done:
Amanda: Worked with Billy to create race pictogram. Finished laying out people & colors based on the race data. Extracted data from csv file and organized the data into usable arrays.
Annie: Began the arms by races diagram.
Billy: Worked with Amanda to create race pictogram. Finished laying out people & colors based on the race data. Extracted data from csv file and organized the data into usable arrays. Created a small form to help us scale the svg elements.
- We discussed modifications to graphs & how to reduce project to 3 of the most coherent & visually pleasing graphs

What we will do:
Amanda: Will work with Billy to finish race pictogram (adding text with responsive sizing according to the percentages).
Annie: Will finish arms by races diagram.
Billy: Will work with Amanda to finish race pictogram. Will work with Annie to extract data from the chart. Will work on bar chart for armed data.
- We will be meeting on Tuesday & Wednesday night to merge project together, resolve merge conflicts, & type up write up.
- We will also work on styling the webpage to make it more presentable.
